Working

- Study program is full time, ~40 hours per week.
- Workload is not evenly distributed, much less in the beginning
- You may have a feeling in the beginning you can work AND study... IT DOESN'T WORK
- **YOU WILL HAVE PLENTY OF TIME TO WORK LATER**
- Please trust me on this one...

...and MORE

- Statistics: only 20 % Slovenian students graduate, 80 % are drop-outs
- Studying is hard, BUT REWARDING
- You are in a foreign country with a completely different culture
- We function, think, behave, act... completely differently than what you are used to so far
- Please ASK, TALK to us.
