I, the undersigned student _____

- declare that I have used artificial intelligence tools solely as assistance in technical and supportive activities, such as spelling and grammar checking, text formatting, editing references, translating individual terms, or assisting in the logical structuring of the content;
- declare that, in cases where I used artificial intelligence tools to obtain information (e.g. to better understand professional concepts or the content of existing sources), I have critically evaluated the results of their use, verified the reliability of the data, and, where necessary, appropriately cited the source or tool in the written work or in an appendix;
- acknowledge that the final text must be the result of my own understanding, analysis, and interpretation;
- am aware that, in the event of doubt regarding authorship or unethical use of artificial intelligence, the Faculty may request additional explanations, proof of authorship, or an oral defense;
- take full responsibility for the content, credibility, and accuracy of all data presented in the written work.
